

# RecoveryManager Plus

## Google Workspace backup

[Gmail](#) | [Calendar](#) | [Drive](#)

- ✓ Back up all items in your Google Workspace environment.
- ✓ Backup organizational accounts or personal accounts.
- ✓ Perform incremental backups of all items.
- ✓ Schedule backups to happen at fixed intervals.
- ✓ Define a retention period for your Exchange backups.
- ✓ Restore entire mailboxes or individual items to any backed-up state.

### Highlights

- ✓ **Comprehensive mailbox backup:** Back up all items in your Google mailboxes, including all emails, calendar entries, contacts, journals, notes, posts, and tasks.
- ✓ **Google Drive backup:** Back up all file and folders in your drive and restore them when needed.
- ✓ **Multiple domain support:** Add multiple Google Workspace domains to RecoveryManager Plus, and back them all up from a single console.
- ✓ **Personal Google account backup:** You can use RecoveryManager Plus to backup not just organizational accounts but also your personal google account
- ✓ **Multiple backup storage options:** Store your Google Workspace backups within your premises or in your Azure Blob Storage and Azure file shares.
- ✓ **Schedule backups:** Schedule your backups to happen during non-business hours to minimize the load on your network.
- ✓ **Incremental backups:** Back up just the changes made to your mailboxes and drives since the last backup cycle.

- ✔ **Backup retention:** Define a retention period for your Google Workspace backups, and automatically discard older backups.
- ✔ **Item-level restoration:** Restore individual mailbox items, calendar events, or even a single Google Drive file.
- ✔ **Restoration preview:** Preview content, attachments, and documents from Google Workspace backups before restoring them.
- ✔ **Compression:** Compress backups to one-third of their original size to save storage space.
- ✔ **Encryption:** Secure your Google Workspace backups with AES-256 encryption.

## System requirements

**Processor:** 2.13GHz or higher

**RAM:** 8GB

### Disk space:

This requirement varies based on the size of your mailbox and drive. RecoveryManager Plus has a best case compression ratio of 3:1. If the total size of the mailboxes and your drives is 1TB, make sure that you have 1TB of free disk space to store the full backup and all subsequent incremental backups.

### Supported browsers:

- Internet Explorer 8 and above
- Mozilla Firefox
- Google Chrome
