

ARE YOU PREPARED FOR THE WORST ?!

Hi! I am John, from ManageEngine. I was curious to learn how well our customers had secured their Active Directory (AD) Data against losses. So I conducted a survey.

How important is AD backup for your organization?

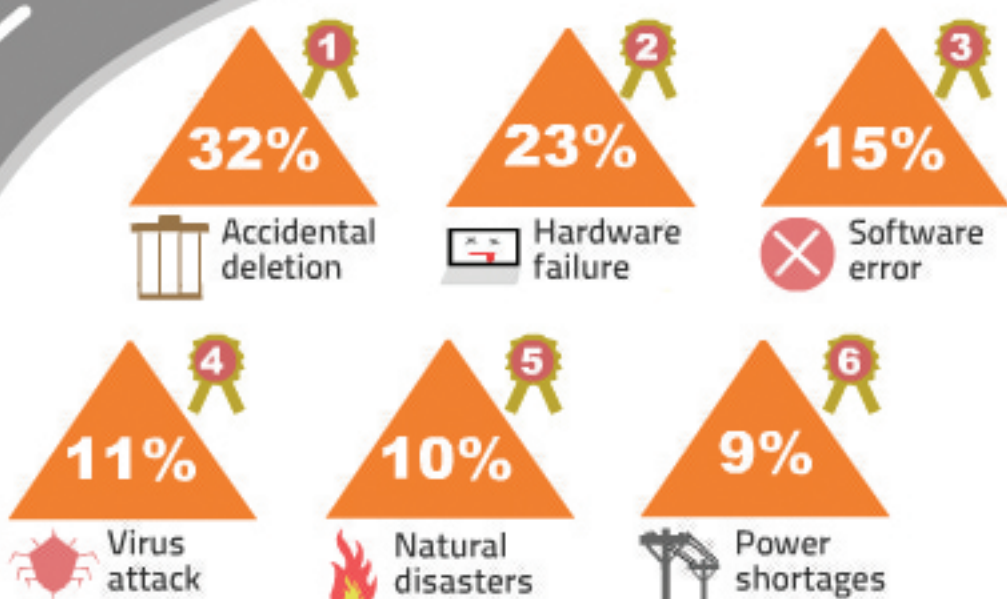

AD backup is very important!

85%

Have you faced accidental deletion or modification of AD data?

44%

What caused your data loss?

30%

Did data loss affect productivity?

Yes

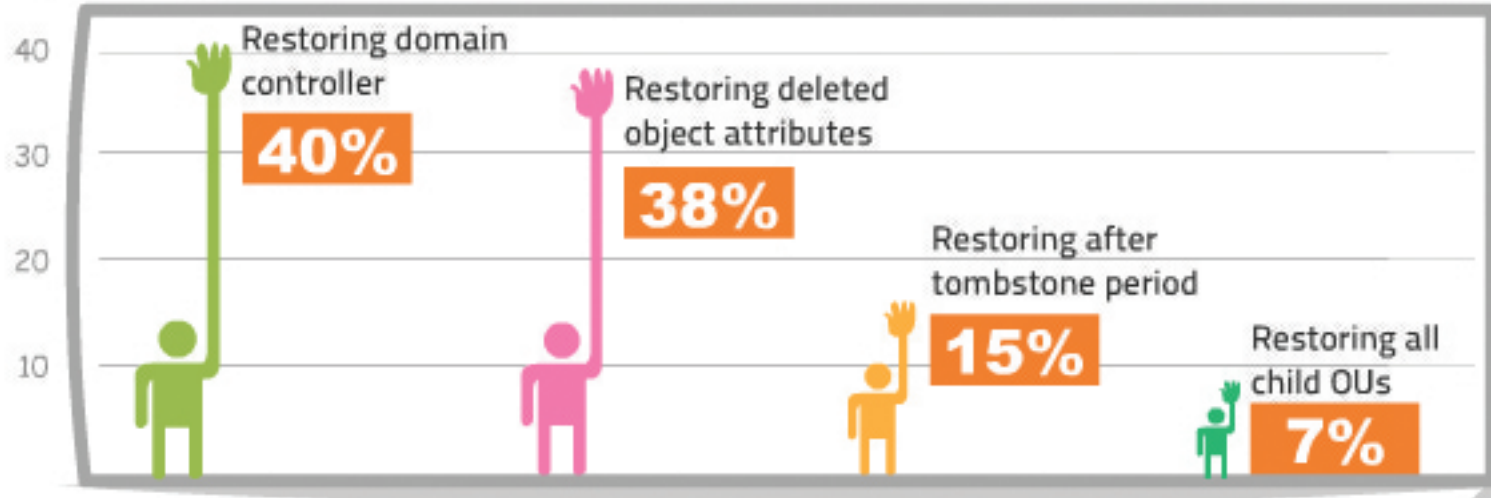

Were you able to restore affected objects?

15%

No

What was the most difficult to restore?

Looking for a backup & recovery solution?
We have just the right tool for you!

ManageEngine RecoveryManager Plus!
