

Benefits of ManageEngine RecoveryManager Plus

Flexible backup storage options

Store your backups within your premises in local repositories, or NAS, or in cloud repositories like Azure Blob Storage, Azure Files, AWS S3, and Wasabi per your needs while adhering to the 3-2-1 backup principle.

Ransomware mitigation with backup immutability

Insure against ransomware by storing backups in immutable cloud repositories like Azure Blob Storage, AWS S3, or Wasabi.

Unified backup solution

Configure multiple AD domains, Entra ID tenants, Microsoft 365 tenants, Google Workspace tenants, Exchange organizations, and Zoho WorkDrive Teams for backup, and manage them from a single dashboard.

Optimized RPO and RTO

Optimize RPO and RTO with configurable backup frequencies and minimize data loss.

Highlights of RecoveryManager Plus

Comprehensive backup

Back up all your data from AD, Microsoft Entra ID, Microsoft 365, Google Workspace, Exchange, and Zoho WorkDrive environments.

Disaster recovery

Back up all domain controllers and restore them to any previous state in the event of a disaster.

Incremental backups

Back up just the changes made to your applications since the last backup cycle and store them as separate versions.

Item-level restoration

Restore individual AD and Entra ID objects, Exchange mailbox items, SharePoint Online and OneDrive for Business files, Google Workspace items, or Zoho WorkDrive data.

Recycle bin

Restore deleted AD and Entra ID objects and their attributes along with their parent containers in a single click.

Rollback

Roll back your applications to a previous backup point and undo all changes made after that point in time.

Backup retention

Define a retention period for your backups, and discard backups that have exceeded the retention period to meet regulatory compliance standards.

RecoveryManager Plus is an excellent product. It has given us peace of mind that we can quickly recover should something happen to our AD.

Fabio Freire

Director of infrastructure, Sandler O'Neill and Partners

A simple and cost-effective backup solution that solves AD Object restoration with a user-friendly UI.
