Log360
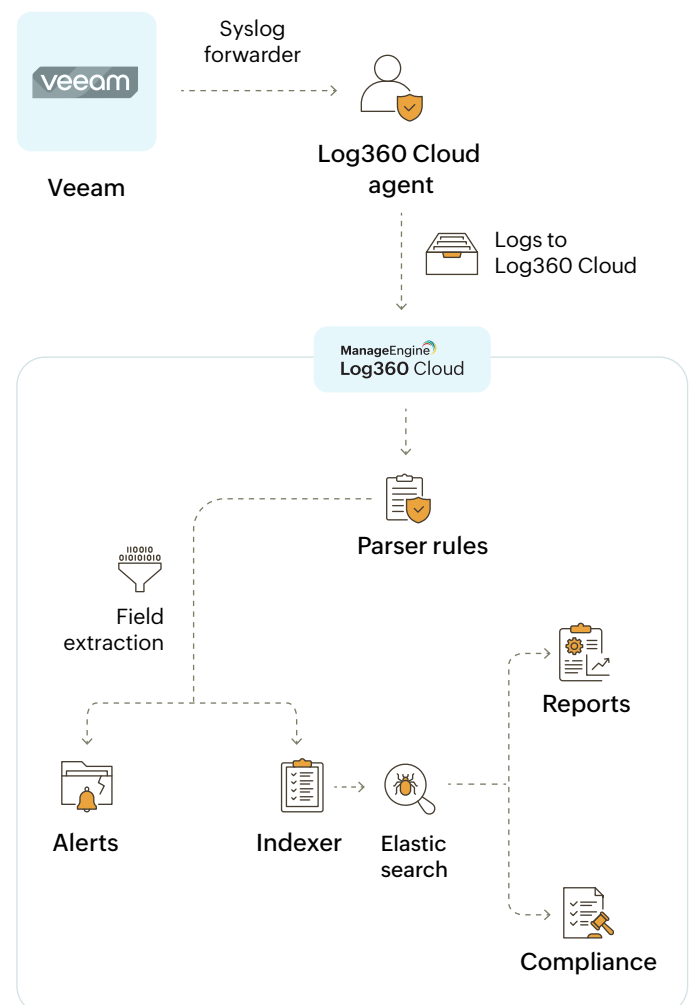

Log360's Veeam extension: Advanced backup log monitoring & analytics

How this extension helps

The Log360 Veeam extension enhances backup security and monitoring by providing real-time visibility into backup operations, job statuses, and potential failures. It enables IT teams to detect unauthorized access, prevent data loss, and ensure compliance with backup policies. Log360 helps organizations improve operational efficiency and respond swiftly to backup-related threats by continuously analyzing backup logs.

Key capabilities:

✓ **Ensure backup integrity**
Track backup job successes, failures, and anomalies in real time to maintain data consistency and reliability.

✓ **Detect unauthorized modifications**
Identify suspicious activities, such as unauthorized backup deletions or alterations, to prevent data breaches.

✓ **Enhance compliance and audit readiness**
Maintain comprehensive logs of backup activities to meet regulatory requirements and internal security policies.

✓ **Prevent ransomware and data loss**
Detect irregular backups and unauthorized access attempts to protect critical business data.

Safeguard your Veeam backup ecosystem with Log360

About Log360:

Log360 is a unified security platform designed for scalability, customization, and seamless integration, allowing organizations to adapt it to their unique network environments. It combines advanced threat detection, log management, user behavior analytics, and compliance reporting into a single console. Supporting on-premises, cloud, and hybrid infrastructures, Log360 enables security teams to ingest, analyze, and correlate data in real time for proactive threat detection and incident response.

About Veeam

Veeam is a data backup and disaster recovery software platform. It provides solutions for protecting data in virtual, physical, and cloud environments, ensuring both backup and replication. Veeam enables rapid recovery of systems and data, offering organizations efficient protection against data loss and downtime across diverse IT infrastructures.
