About IT360

The IT360 dashboard provides a 360-degree view across IT to proactively monitor performance. It is designed to monitor and manage IT infrastructures for medium and large enterprises, and it adds a business context to monitoring IT resources to help the various stakeholders understand the impact of downtimes on the business. IT360 comprises network performance, server and application performance, database performance, and end-user experience management for IT operations and an ITIL helpdesk for IT service management, all in one product. In addition to direct use by enterprises, IT360 is also available for MSPs who offer IT management-as-a-service. For more information, please visit <http://www.manageengine.com/it360>.

About ManageEngine

ManageEngine delivers the real-time IT management tools that empower an IT team to meet an organization's need for real-time services and support. Worldwide, more than 60,000 established and emerging enterprises — including more than 60 percent of the Fortune 500 — rely on ManageEngine **products** to ensure the optimal performance of their critical IT infrastructure, including networks, servers, applications, desktops and more. ManageEngine is a division of **Zoho Corp.** with offices worldwide, including the United States, United Kingdom, India, Japan and China. For more information, please visit <http://www.manageengine.com>; follow the company blog at <http://blogs.manageengine.com/>, on Facebook at <http://www.facebook.com/ManageEngine> and on Twitter at [@ManageEngine](https://twitter.com/ManageEngine).

VMware, VMworld, VMware vSphere and VMware vCenter are registered trademarks and/or trademarks of VMware, Inc. in the United States and/or other jurisdictions. ManageEngine is a trademark of Zoho Corp. All other brand names and product names are trademarks or registered trademarks of their respective companies.
