Webinar: Confused About IPv6? ManageEngine, Inside Products Reveal Benefits, Pitfalls and Risks of Transition Techniques

Free 60 Minute Webinar on September 13 Teaches Attendees How to Implement IPv6, Plus Security Hazards and Other Tips from the Trenches

BusinessWire Press Release: ManageEngine – Wed, Sep 5, 2012 9:15 AM EDT

PLEASANTON, Calif.--(BUSINESS WIRE)--

Enterprises are moving towards IPv6 addressing for the host of advantages it offers. However, choosing the right transition mechanisms to support co-existence of the incompatible IPv4 and IPv6 protocols requires awareness of techniques, their benefits and downfalls.

In the second webinar of a two-part series organized by ManageEngine NetFlow Analyzer and Inside Products, IPv6 industry expert Nalini Elkins will help attendees better understand their options for IPv6 adoption. Topics include the benefits and pitfalls of different transition techniques such as translation, tunneling and dual-stack mode, and how to handle potential security hazards. The attendees will have an opportunity to directly interact with the speaker to get answers to their IPv6 questions.

What: "IPv6 Transition Techniques"
          Part 2 of the NetFlow Analyzer Knowledge Webinar Series on IPv6

Who: Nalini Elkins, Founder and CEO, Inside Products

When: Thursday, September 13, 2012; 11:00 a.m. Eastern time (8:00 a.m. Pacific time)

How: Register for this free event at http://ow.ly/dKKVr

The first webinar in the series, "Introduction to IPv6 Addressing," discussed the fundamental concepts of IPv6 and can be viewed at http://ow.ly/dkKYF.

About ManageEngine NetFlow Analyzer

ManageEngine NetFlow Analyzer is a powerful traffic analytics and network forensics tool that supports IPv6. It has other capabilities such as IP SLA reporting, QoS reporting, Medianet reporting, WAAS reporting and more. It has also passed the interoperability verification testing for IP SLA, WAAS, NetFlow and Medianet monitoring and is certified 'Cisco Compatible.' For more information, please visit http://www.manageengine.com/netflow/.

About Inside Products

Inside Products offers innovative solutions for IPv4 and IPv6 networks, including classes, products and consulting. Our IP Problem Finder suite 'turns packet traces into English.' Our focus is to improve the productivity of the systems programming staff who maintain the data processing

to improve the productivity of the systems programming staff who maintain the data processing infrastructure for large corporations, educational institutions, and government agencies. If you want to learn more about IPv6, or need help with integrating IPv6 into your network, please visit www.insidethestack.com.

About ManageEngine

ManageEngine delivers the real-time IT management tools that empower an IT team to meet an organization's need for real-time services and support. Worldwide, more than 60,000 established and emerging enterprises — including more than 60 percent of the Fortune 500 — rely on ManageEngine products to ensure the optimal performance of their critical IT infrastructure, including networks, servers, applications, desktops and more. ManageEngine is a division of Zoho Corp. with offices worldwide, including the United States, United Kingdom, India, Japan and China. For more information, please visit http://www.manageengine.com/; follow the company blog at http://blogs.manageengine.com/, on Facebook at http://www.facebook.com/ManageEngine and on Twitter at @ManageEngine.
