PREVIEW
Gitex 2014

A GLIMPSE INTO SOME OF THE BIG PLAYERS AT GITEX 2014

ManageEngine

ManageEngine, a real-time IT management company, will be holding demonstrations of the latest versions of its IT Management solutions Desktop Central, Applications Manager, EventLog Analyzer, Password Manager Pro, ADSelfService Plus, ADManager Plus and ADAudit Plus at Gitex.

The company will also exhibit its key products for network performance management, server and application management, IT help desk, active directory management, log management and SIEM, privileged password management, and desktop and mobile device management to name a few.

Nirmal Manoharan, Regional Director Sales-Middle East, ManageEngine attributes the launch to an increased demand for IT management solutions. "Addressing the market need well ahead of time in IT Management, we are looking forward to meeting our partners and customers with the new version of our products, along with a few other exciting announcements at Gitex", he added.

ManageEngine, will hold product displays at stands A7-10 in Hall 7 of Dubai World Trade Centre.
