

ManageEngine to showcase its entire portfolio

BY OUR BUSINESS BUREAU

DUBAI: ManageEngine, the real-time IT management company, today announced that it is participating in GITEX Technology Week 2014, to be held at the Dubai International Convention Center, from October 12-16, 2014. In addition to showcasing its entire portfolio of IT management products, ManageEngine will also be holding product demonstrations, display the latest product enhancements and feature additions, and meet the customers and partners at Hall 7, A7-10 at the event.

“We have had tremendous success at all the previous editions of the event, and the response that we have received over the years has been fantastic. Continuing the good track record and addressing the growing market needs well ahead of time in IT Management, we are looking forward to meet our partners and customers with the new version of our products — Desktop Central, Applications Manager, EventLog Analyzer, Password Manager Pro, AD Self Service Plus, AD Manager Plus and ADAudit Plus, along with a few other exciting new announcements at the event.” Nirmal Manoharan, Regional Director (Sales-Middle East) at ManageEngine.
