# Sridhar Vembu

## Co-founder and CEO,
## Zoho Corp.

Sridhar Vembu is the CEO of Zoho Corporation, which he originally founded as AdventNet in 1996. As CEO, Sridhar guides strategic programs around employee advocacy, business development, and Zoho's portfolio of online business software, one of the industry's first cloud computing software suites. He is also the brainchild behind Zoho Schools, the company's two-year training program that serves as an alternative to a four-year college degree. In 2021, he was awarded the Padma Shri, India's fourth-highest civilian honour.

# Shailesh Davey

## Co-founder and VP of Engineering, Zoho Corp.

Shailesh Davey is the vice president of engineering at Zoho Corporation. He is also one of the co-founders of the company. At Zoho Corporation, he is working on large scale data handling requirements and is actively involved in the implementation of engineering processes across the organisation. Shailesh devotes much of his time on data, databases, and data centres.

# Rajesh Ganesan

### President,
### ManageEngine

Rajesh Ganesan is the president at ManageEngine, the enterprise IT management division of Zoho Corporation. He is a part of the leadership team overseeing product strategy and direction for the overall suite. Rajesh has been with Zoho Corp. for over 20 years developing software products in various domains, including telecommunications, network management, and IT security. He is currently focused on delivering enterprise IT management solutions as SaaS.
