

O365 Manager Plus is an extensive Office 365 tool used for reporting, managing, monitoring, auditing, and creating alerts for critical activities. With its user-friendly interface, you can easily manage Exchange Online, Azure Active Directory, Skype for Business, OneDrive for Business, Microsoft Teams, and other Office 365 services all from one place.

Features

Office 365 Reporting

More than 700 pre-configured reports on mailboxes, users, groups, licenses, security settings, and more.

Office 365 Auditing

Track who did what, and when with detailed audit reports.

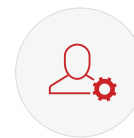

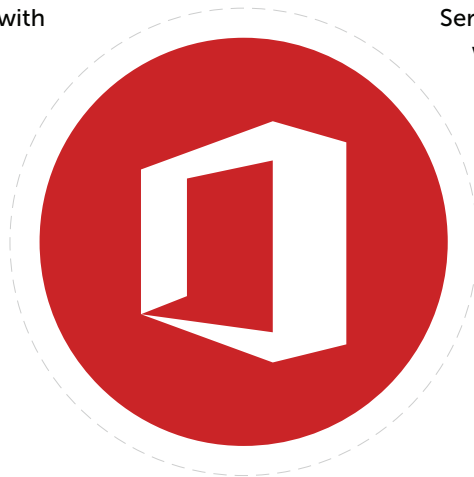

Office 365 Monitoring

Service & end-point health monitoring with real-time email notification.

Help Desk Delegation

Cross-tenant and domain-based delegation with custom roles.

Office 365 Management

Manage users, mailboxes, licenses, and contacts in bulk.

Password Expiration Notification

Notify users on their Office 365 account password expiration.

Office 365 Alerting

Instant email notification on critical activities.
