OnboardPro

Unlock the full potential of your **ManageEngine solution**

ManageEngine ADManager Plus

ManageEngine brings solution implementation services with OnboardPro, a seamless and holistic approach to solution implementation, completely customized and carried out by experts. These services are available in two different options to accommodate the requirements of different businesses: Standard and Advanced.

Here's a guide to help you choose the model that best suits your needs-

If you need	You should go with
Quick implementation	Standard
Expert consultation to define business requirements and use cases	Advanced
Requirements-driven, org-specific customization of templates, workflows, automations and scheduled reports	
Advanced configurations and integrations with external solutions	

Here's a more detailed breakdown of all the services included in both plans to help you decide:

ADManager Plus Service Offering	Standard	Advanced

Note:

- The activities listed under the Standard Edition are planned to be completed within 10 hours of implementation effort.
- The implementation of the above services are subject to fulfilment of client deliverables outlined in the scope of work (SOW).
- Requirements extending beyond this scope can be accommodated through additional implementation services.
