

ADAUDIT PLUS STRIKES GOLD FOR DAVIDSON COUNTY COMMUNITY COLLEGE. FINDS THE MIS-CONFIGURED ANTI-VIRUS CLIENT, RIGHT AFTER INSTALLATION. STRIKE 1. 24X7 MONITORING FOLLOWS!

CASE STUDY

A misconfigured antivirus client was trying to authenticate, kept failing and was filling up the log files. With ADAudit Plus we found the computer and it is protected. Good tool, wish I had more time to play with it.

Donald Beck - Director, IT, Davidson County Community College

Business Needs

Davidson County Community College (DCCC) is a multi-campus, public, two-year higher-education institution. The Davidson and Davie Campus strive to address the community's economic development and providing individual, private and corporate support for students, facilities and instructional equipment. DCCC had their disk full with log files and needed a tool to find the root cause.

Solution

DCCC a mid-size community college in NC decided on ADAudit Plus to solve their 'unknown' Active Directory issue of a mis-configured antivirus client trying to authenticate and kept failing, resulting in filled-up logs. The ADAudit Plus 'Logon Failures' report helped them locate and correct the login error. DCCC is armed with 150+ reports and email alerts to monitor every Windows Active Directory and Servers activity. DCCC credited ADAudit Plus solution as a good tool and very affordable against competitors too costly pricing.
