

ADAUDIT PLUS HELPS SEATTLE HOUSING AUTHORITY MONITOR THEIR EMPLOYEES LOGON AND TO TRACK THE INCORRECT AD CHANGES WITH WHO DID WHAT, WHEN AND FROM WHERE.

ManageEngine®
ADAudit Plus

CASE STUDY

ADAudit Plus solved our challenge of tracking login information with location of field workers. Additionally, we now know who made what incorrect / accidental AD changes.

Shannon Steffenson - Network Systems Manager, Seattle Housing Authority

Company:

Seattle Housing Authority

Industry:

Government

Location:

USA

Business Needs

Established in 1939, Seattle Housing Authority (SHA) provides long-term rental housing and rental assistance to more than 29,500 people in the city of Seattle. The agency owns and operates buildings of all shapes and sizes on more than 400 sites throughout the city. SHA needed to govern their 630 employees' network login activities across 70 locations without having to verify.

Solution

The municipal corporation decided on ADAudit Plus, comprehensive Active Directory audit software that provides accurate Active Directory event details with 150+ reports and instant email alerts. The requirements for tracking various employee logons were met by Logon Activity based on IP Address, Logon Activity based on DC, User Logon Activity, Logon History, Logon Duration and many more reports. The AD changes were easy to track with the numerous ADAudit Plus reports categorized within User / Account / Group / Computer / OU / GPO management reports.

The ManageEngine ADAudit Plus Advantage

Permissions Monitoring

Track Windows AD & Servers, system, configuration and file modifications by Admin, Users, Helpdesk, HR etc.

Archive Data

Archive AD event data for Security and Forensics.

IT Auditors

Logins for IT Auditors with reports view only.

Important Features

Here, only the important features are listed, for the many, many more features experience an Online Demo of ADAudit Plus.

ManageEngine
ADAudit Plus

ADAudit Plus is a UBA-driven auditor that helps keep your AD, Azure AD, file systems (including Windows, NetApp, EMC, Synology, Hitachi, Huawei, and Amazon FSx for Windows), Windows servers, and workstations secure and compliant. ADAudit Plus transforms raw and noisy event log data into real-time reports and alerts, enabling you to get full visibility into activities happening across your Windows Server ecosystem in just a few clicks. For more information about ADAudit Plus, visit manageengine.com/active-directory-audit.
