# For MSVD, managing accounts in Active Directory was a breeze with ManageEngine ADManager Plus

" Dollar for dollar it is without a doubt the most powerful and best organized tool I have seen."

- Mike Stewart, IT Department, MVSD

Challenges

MVSD School, Pennsylvania found it difficult to maintain user and computer accounts in the Active Directory.

- Create & Manage user accounts for all the employees and students
- Manage over 700 computer accounts
- Track old and unused accounts
- Take the burden off their IT Staff and allow them to allocate time to other priority tasks

Solutions offered

MVSD needed a time-efficient solution that would help them solve their issues with Active Directory Management. And this they achieved with the help of ManageEngine ADManager Plus.

- ADManager Plus facilitated the "creation of multiple users" at one go. User and computer accounts could be managed in bulk using a simple CSV file import
- The product also featured "specialized reports" that helped in identifying old and unused accounts
- ADManager Plus offered all the necessary components to manage Active Directory data in a smart and effective manner

Results experienced

- ADManager Plus offers a hassle-free interface to create and manage any number of users
- IT staff at MVSD find ADManager Plus to be a 'Wonder-Tool' that saves a lot of their time and effort
- On the whole, MVSD identifies ADManager Plus to be a highly cost-effective solution from ManageEngine

"ADManager Plus helps us save time on some very tedious tasks.", said Mike Stewart of MVSD School
