Managing users in hybrid Active Directory

can be easy with the right tool

40% Over 40 percent of enterprises have a hybrid AD environment.

97% of organizations still rely on their on-premises AD environment.

60% of organizations consider their on-premises AD the key to security configuration and management, and access management.
The goal of hybrid AD

A well-managed, well-integrated environment that consists of the traditional on-premises Active Directory as well as the cloud-based Azure Active Directory

Enterprises consider security, flexibility, and efficiency to be the main factors for their move to hybrid Active Directory.

The benefits of hybrid AD
End-user productivity | Cost | Consistency | Scalability | Efficiency

Finding the right tool

75% 75 percent of organizations still use native tools and scripts for user provisioning in their hybrid AD environments

ADManager Plus is web-based software that lets administrators manage multiple users in **AD, Office 365, Exchange, G Suite, and Skype for Business** all from a single console with intelligent, all-inclusive user creation templates.

Administrators no longer have to depend on time-consuming native tools or complex PowerShell scripts.
What ADManager Plus has to offer

Security-focused bulk user provisioning and deprovisioning

Custom templates to automate user onboarding and offboarding

ManageEngine ADManager Plus

Streamlined workflows

Comprehensive reports

ManageEngine ADManager Plus

ADManager Plus is a unified management and reporting solution for Active Directory, Microsoft 365, Exchange, and Google Workspace. The solution offers more than 200 out-of-the-box, actionable reports that fetch vital data across multiple platforms. With its help desk delegation capability, admins can define roles and delegate tasks securely to non-admin users. Other capabilities of ADManager Plus include file permissions management, automated stale account cleanup, GPO management, and customizable workflows. Admins can also manage Active Directory on-the-go with iOS and Android apps.
