ManageEngine  
EventLog Analyzer

EventLog Analyzer is a complete log management software that provides holistic cybersecurity. It collects, analyzes, and manages log data from over 700 log sources. With real-time security auditing capabilities, it's easier to monitor critical changes in all your end-user devices. EventLog Analyzer offers instant threat detection to uncover security threats using event correlation and threat feed analysis, and instant mitigation using automated workflows. For more information about EventLog Analyzer, visit [manageengine.com/products/eventlog/](https://manageengine.com/products/eventlog/).
