

**ManageEngine**

Privileged Identity Management Suite

**A UNIFIED APPROACH FOR  
ENTERPRISES TO COMBAT  
IDENTITY THEFT**

[www.manageengine.com](http://www.manageengine.com)

Leverage an efficient, multi-layered approach for taking care of your organization's privileged identity management needs.

## Secure Privileged Identities

Discover, consolidate, control, rotate, and protect critical account credentials, keys, and SSL certificates in your IT ecosystem.

 Passwords    SSH Keys    SSL Certificates

## Control Privileged Access

Centrally manage administrative access provisioning for users and channel all privileged connections through an encrypted gateway to bolster security and enhance transparency.

 One-Click Launch    RDP | SSH | SQL    Approval Workflows

## Monitor User Activity

Maintain a holistic view of privileged activity occurring on sensitive information systems across your network with complete session

 Record    Shadow    Terminate

Over **180,000+** companies around  
the world trust
