

Go beyond what Entra ID gives you. Secure every identity.

ADSelfService Plus extends Microsoft Entra ID
with stronger authentication and smarter
SSPR controls.

Functional value proposition

Hybrid-ready

Flexible identity protection
designed for complex hybrid
enterprise environments

Endpoint security

Extend endpoint
protection beyond Entra ID
touchpoints

Extend, don't replace

Expand Entra ID functionality
without changing your
identity foundation

Economical value proposition

Get advanced security capabilities without upgrading
to expensive Microsoft Entra ID P1 or P2 licensing.

Why choose

ADSelfService Plus over native Entra ID?

	ADSelfService Plus	Microsoft Entra ID
 Stronger authentication	Choose from 17 authentication methods	Choose from 12 authentication methods
 Endpoint security	MFA for Windows logins, UAC prompts, local user accounts, system unlocks, and RDP access	No dedicated endpoint MFA layer
 Offline MFA	Supports offline MFA for Windows endpoints, enabling authentication even without internet connectivity	Not supported
 Conditional access granularity	Policies based on IP, geolocation, time, domains, and groups	Broader conditional access in higher-tier editions, but limited hybrid granularity
 Password policy enforcement	Advanced password policies with regex rules, dictionary checks, sequence restrictions, unlimited banned passwords, and real-time strength analysis	Rigid password policies limited to basic complexity rules, a single policy for all users, and only 1,000 custom banned passwords
 Password synchronization	Synchronizes passwords across enterprise applications	Not supported

Licensing comparison

Microsoft Entra ID Free

- ✓ Basic MFA
- ✓ Basic SSO
- ✗ No advanced SSPR
- ✗ No custom password policy
- ✗ No conditional access

Microsoft Entra ID P1

- ✓ MFA with conditional access
- ✓ Enterprise SSO
- ✗ Advanced SSPR
- ✗ No risk-based access
- ✗ No identity protection

Microsoft Entra ID P2

- ✓ All P1 features
- ✓ Risk-based access
- ✓ Identity protection
- ✗ No endpoint MFA

Higher cost—up to **3x** more than ADSelfService Plus for comparable capabilities

ManageEngine ADSelfService Plus

- ✓ 17 MFA methods
- ✓ Endpoint + Offline MFA
- ✓ Advanced SSPR + Password policies
- ✓ Granular conditional access policies

One-third of the cost of Entra ID P2 for equivalent advanced capabilities
