About Microsoft Entra Password Protection

Microsoft Entra Password Protection helps organizations mitigate the risk of weak and commonly used passwords by acting as a password filter. It automatically blocks easily guessable passwords like *Password123*, *Qwerty11*, and *123456*, enhancing security across Microsoft Entra ID environments.

About ADSelfService Plus

ADSelfService Plus is an identity security solution that ensures secure, seamless access to enterprise resources and establishes a Zero Trust environment. Its capabilities include adaptive multi-factor authentication (MFA), single sign-on, self-service password management, a password policy enhancer, remote work enablement, and workforce self-service. The Password Policy Enforcer feature in ADSelfService Plus accomplishes everything that Microsoft Entra Password Protection does and more.

The table below provides a detailed comparison between ADSelfService Plus' Password Policy Enforcer and Microsoft Entra Password Protection.

Feature	ADSelfService Plus	Microsoft Entra Password Protection
Prevent the use of banned passwords	✓	✓
Add custom values to the banned password list	✓	✓ (Requires a Microsoft Entra ID P1 or P2 subscription)
Gain visibility into banned passwords	✓	✓ *Only custom values can be viewed (Requires a Microsoft Entra ID P1 or P2 subscription)

Pricing

ADSelfService Plus	Microsoft Entra Password Protection
<ul style="list-style-type: none"> Free edition for 50 users Standard edition starts at \$245 for 100 domain users Professional edition starts at \$345 for 100 domain users Pricing	<ul style="list-style-type: none"> Microsoft Entra ID Free (custom values are not supported) Microsoft Entra ID P1: \$72 per user per year Microsoft Entra ID P2: \$108 per user per year

Summary

ADSelfService Plus is a robust alternative to Microsoft Entra Password Protection, offering advanced policy enforcement and greater customization options. Unlike Microsoft Entra Password Protection, ADSelfService Plus allows for granular control over password policies based on the OUs and groups, provides visibility into all banned passwords, and enables customized error messages on Windows logon screens.

With pricing starting at \$245 for 100 domain users, ADSelfService Plus is more cost-effective than Microsoft Entra ID P1 or P2. It helps organizations enhance password security, reduce IT help desk costs, improve the user experience, and ensure compliance with industry regulations—all while remaining flexible and affordable.
