

THE RAPID-START ENTERPRISE SERVICE DESK

Create and deploy service desk instances in less than 60 seconds

Available in the cloud 

Built on the industry-leading ITSM tool,
ServiceDesk Plus; trusted by over 100,000
service desks worldwide.

Standardized service management for different departments

HR

Facilities

Finance

Travel

*Single enterprise directory • Centralized request portal
Service automations • Built-in catalog and templates
Unique service desk instances*

Having separate service desk instances for IT, facilities, and records allow us to track the issues separately even as we feel like the firm's support and administration departments are working together. I love that it's customizable, easy to use, and available at a great price.
