ManageEngine SharePoint Manager Plus

VS

ShareGate

ManageEngine SharePoint Manager Plus overview

ManageEngine SharePoint Manager Plus is a complete reporting, auditing, management, monitoring, and migration tool for on-premises SharePoint and SharePoint Online environments.

SharePoint Manager Plus allows administrators to manage SharePoint Farms, get detailed out-of-the-box reports on security and component-level changes, view the hierarchical architecture of their SharePoint environment, and more instantly.

Supported environments: SharePoint 2010, 2013, 2016, 2019, Subscription edition, and SharePoint Online.

ShareGate overview

ShareGate is a migration and management solution for Teams and SharePoint. It also provides insightful reports, helps you automate tasks and manage Teams and SharePoint groups.

This document will compare the capabilities of ManageEngine SharePoint Manager Plus and ShareGate.

Note: The comparison is based on readily available information on ShareGate's website as on May 5, 2024. The data provided might vary in the actual product.

NA – Information not available in the competitor’s website.
