

Corporation Fact Sheet

About Zoho Corp.

Zoho Corp. is a privately held, profitable organization focused on building quality and affordable software for businesses. It consists of three divisions: Zoho.com, ManageEngine, and WebNMS.

Zoho.com - Online Business, Productivity, and Collaboration Apps

Zoho.com offers a suite of online web applications geared towards increasing workforce productivity and offering easy collaboration. More than 10 million users rely on Zoho's business, productivity, and collaboration apps to conduct their day-to-day work.

To date, Zoho has launched 25+ different applications, which include several online office applications such as Writer, Sheet, Show, and Mail, along with a host of business applications ranging from CRM to Projects, Invoice, and Meeting. These applications are offered directly via Zoho.com, or through hundreds of partners in the Zoho Alliance Partner Program. Zoho has received numerous awards, including About.com 'The Best in Email' Reader's Choice Awards and InfoWorld 2009 Technology of the Year Award.

ManageEngine simplifies IT management with affordable software that offers the ease of use SMBs need and the powerful features the largest enterprises demand. More than 120,000 companies around the world - including three of every five Fortune 500 companies - trust our products to manage their networks and data centers, business applications, and IT services and security. Another 300,000-plus admins optimize their IT using the free editions of ManageEngine products.

WebNMS specializes in solutions for multi-vendor network management, service orchestration and IoT infrastructure management. WebNMS markets these solutions on flexible, extensible platform to network service providers, managed service providers and equipment vendors. WebNMS has more than 25000 carrier deployments worldwide in Tier1 Carriers.

History

Zoho Corporation has offices worldwide, including the United States, India, Singapore, Japan and China.

- Bootstrapped expansion from frameworks to end products to online apps
- Serves customers, ranging from solopreneurs, startups, SMBs to large enterprises
- 3,000 employees worldwide
- Profitable since inception

Philosophy

No frills. R&D driven. 100% customer focused. Zoho Corporation believes in providing customers with the best software at affordable prices.

"A customer is the most important visitor on our premises.

He is not dependent on us. We are dependent on him.

He is not an interruption in our work - he is the purpose of it.

We are not doing him a favor by serving him.

He is doing us a favor by giving us the opportunity to serve him."

- Mahatma Gandhi

ManageEngine - Enterprise IT Management

ManageEngine offers simple, easy-to-use, real-time IT management products at a price that every business can afford. It is thoughtfully built for SMBs, large enterprises, and MSPs. The ManageEngine suite provides solutions for network performance management, help desk & ITIL, bandwidth monitoring, server and application management, desktop management, mobile device management, security information event management, password management, network configuration management, and Active Directory management.

ManageEngine products are easy to install, set up, and use. They offer extensive support, consultation, and training. Worldwide, more than 120,000 established and emerging enterprises - including more than 60 percent of the Fortune 500 - rely on ManageEngine to meet their IT management needs cost-effectively. ManageEngine has customers from more than 200 countries. Some of the company's better known customers are HP, EMC, Applied Materials, NASA, DuPoint, Lockheed Martin, StorageTek, and Sony.
